

# Pentagram, Forever My Queen

I ran away with myself  
I think I ran a little too far  
Your love is more than a tease  
And I'm gonna give it all of my heart  
Situations is all wrapped up  
And no more needs to be said, oh no  
You live in my world gotta heed me  
And I know that you can cause you need me  
There ain't nothin' gonna stop us now  
We're willing and we both know how  
And baby you're gonna be my queen  
Cause the king always know just what he means  
Well, alright  
The future looks only a sea  
Of the troubled times ahead for you and me  
And the desert oasis just sand  
For the kingdom and all of my plans  
On no, said all will fall, yeah
