

People In Planes, Moth

Moth on the wall you never fall
You just disappear from view
You don't even have to try
To make a nuisance of yourself

You deny all knowledge
That anything ever happened here
Did it ever happen

So where did you go?
Come back and finish me
But you're just a moth so
Make a nuisance of, YOURSELF

Someday you will find
You can't stand YOURSELF
You'll radiate your self-hate

Are you aware of the smoke?
It's getting in my face
I dedicate this song to you
For choking up my life

Oh sheriff
You're pregnant
So who'll stop the killing spree
When you
Take your
Maternity leave

So where did you go?
Come back and finish me
But you're just a moth so
Make a nuisance of, YOURSELF

Someday you will find
You can't stand YOURSELF
You'll radiate your self-hate
