

# People In Planes, Rush

Wouldn't want to rush you  
home again  
I'll pay to see you  
again and again  
yeah

You know you terrify me  
That's not what I want  
Is that what you want?  
Cause it's important to me  
I just never told you

Beware of the professionals  
You won't get me on that bicycle with you

How much do you live in denial?  
How much do I?

You know you terrify me  
That's not what I want  
Is that what you want?  
Yeah, the connection is real  
And that's just what I want

I wouldn't want to rush you  
Home again  
A lonely evening  
Oh no, not again
