

# Pepper, Good Enough

Girl I like what you do to me  
Girl I like what you say to me but  
Lately now you've been the biggest distraction whoa  
Just trying to get all of my attention on you  
But you're never, never satisfied  
Never good enough, it's never good enough  
Never good enough, it's never good enough for you  
Girl I tell you that I love you  
Girl it's such an easy thing to do but I  
I can't stay all around talking forever, oh  
You always think somethings wrong when we're not together, you hung up the phone  
Think I'll finish what I need to say  
It's never good enough, it's never good enough  
It's never good enough, it's never good enough for you  
Maybe I got no one left to  
Seems you're never, never satisfied  
Never good enough, never good enough  
Never good enough, it's never good enough for you  
It's never good enough  
It's never good enough for you
