

# Per Gessle, There Is My Baby

I drive home late at night  
Real tired  
Got the radio blatin' high  
I kill an hour on the freeway  
It's so easy  
Cos I know what's waitin' for me  
I park the car on the yard  
Got my key in the right direction  
And suddenly she appears  
In front of me like 1-2-3  
There is my baby  
There is my girl  
And she looks so fine  
Best thing that ever happened in my life  
Sometimes I feel so alone  
All destroyed  
Cryin' like a baby boy  
She puts her arms around me  
Then she kisses me  
And tell me stupid little things I adore  
In this old town you're bound to lose  
I was the one with my mouth shut down  
So there's no real reason for this dream  
To be there fo me, to be there for me, hey  
There is my baby  
There is my girl  
And she looks so fine  
Best thing that ever happened in my life  
In this small town you're bound to lose  
I was the one with my mouth shut down  
here's just one real reality  
Waitin' there ahead of me  
There is my baby  
There is my girl  
And she look so fine  
Best thing that ever happened in my life  
Yes, she look so fine  
Best thing that ever happened in my life  
Yes, she looks so fine  
God, she looks so fine
