

# Perry Blake, Native New-yorker

Twilight was to my life  
What the daylight was to yours  
And in hindsight it was twilight  
That took you from me

But you're a native new yorker  
You should know it all by now  
You're a native new yorker

There'll be sunshine in spring  
No more heartache  
Though the skyline has changed  
Love is on it's way

But you're a native new yorker  
You should know it all by now  
You're a native new yorker

Twilight was to my life  
What the daylight was to yours  
And in hindsight it was twilight  
That took you from me
