

Perry Blake, This Life

It's a little device
It's a little device
Keeps you warm
Keeps you warm

It's a little surprise
Just a little surprise
To keep you calm
To keep you calm

Shadows and light
Shadows and light
I see your face on every single street

Got to get out of this place tonight
Got to get out of this way of life
Got to get out of this place tonight

It's a little device
It's a little device
Keeps you warm
Keeps you warm

Got to get out of this place tonight
Got to get out of this way of life
