

Perzonal War, Born

You see me smiling see me sneaking
although you would like me to feel down
but there is so much for me to lose
so many ways for me -no doubt- no

Yes in a way I went through hell
with one foot nearly in the grave
but there is one thing I will tell
I am no business slave

Yes all I see the business liberty
I do not know - aim of this show
it is all the same - no need for shame
not dead - no we will rise again

Born
yes we are just brought here for one aim
born
to raise some hell for you again
born
a good time is more than most can take
born
not for the last time I am afraid

Yeah see the justice we live by
ruled by the biggest money bag
be honest to yourself and you will know
the best preparing for attack

Yes all I see the business liberty
I do not know - aim of this show
it is all the same - no need for shame
not dead - no we will rise again

Born
yes we are just brought here for one aim
born
to raise some hell for you again
born
a good time is more than most can take
born
not for the last time I am afraid
