

# Pet Shop Boys, Footsteps

Footsteps in the dark  
Only love will break your heart  
Footsteps, footsteps

Whenever trouble comes around  
or lonely nights lead underground  
and far in the dark  
abandoned cars suddenly start up  
an anxious sound  
As long as I hear your footsteps in the dark  
that's all I need

Footsteps in the dark  
Only love will break your heart  
Footsteps, footsteps

When loneliness induces fear  
like waves against a ramshackle pier  
When thunder and rain  
scar the windowpane once again  
I want you near  
As long as I hear your footsteps in the dark  
that's all I need

I'm longing to see you  
I want you, I need you

Like a child who feels afraid  
of the dark at night  
hoping to hear a gentle touch  
turning on a welcome light  
As long as I hear your footsteps in the dark  
that's all I need  
As long as I hear your footsteps in the dark  
that's all I need

Footsteps in the dark  
Only love will break your heart  
Footsteps, footsteps  
Footsteps in the dark  
Only love will break your heart  
Footsteps, footsteps
