Pet Shop Boys, Radiophonic

In the air In the air

The night was long
Now the crowd has gone
there's sunlight on my bed
Feels like a radiophonic workshop's
beaming straight into my head
It could make you weep
I can't get to sleep
There's ringing in my ears
like a radiophonic workshop
orchestrating all my stupid fears

Radiophonic I think I'm in love Radiophonic I think I'm in love

My skin is itching I'm totally twitching with the pounding in my head like a dud sub-sonic beat-box booming bass under the bed My hands are shaking My mind is aching with a feeling deep inside that you've been staring sending signals every time our paths collide

Radiophonic I think I'm in love Radiophonic I think I'm in love

Think I'm in love

Radiophonic I think I'm in love Radiophonic I think I'm in love

In the air
