

# Pete Murray, Better Days

And I saw it coming  
I saw emptiness and tragedy  
And I felt like running  
So far away  
But knew I had to stay  
And I know when I'm older  
I look back and I still feel the pain  
I know I'll be stronger and I know I'll be fine  
For the rest of my days

I've seen better days  
Put my face in my hands  
Get down on my knees and I pray to God  
Hope he sees me through till the end

I noticed the smallest things  
But I didn't notice the change  
It was hot in the morning  
Then it turned so cold, 'twas the end of the day  
There was no condensation I just felt like I was in space  
I needed my friends there I just turned around  
They were gone without a trace

I've seen better days  
Put my face in my hands  
Get down on my knees and I pray to God  
Hope he sees me through till the end

Now I have just started  
And I won't be done till the end  
There's nothing I have lost  
That was once placed upon the palm of my hands  
And all of these hard times  
Have faded round the bend  
Now that I'm wiser I cannot wait  
Till I can help my friends

I've seen better days  
Put my face in my hands  
Get down on my knees and I pray to God  
Hope he sees me through till the end

Seen better days  
Put my face in my hands  
Get down on my knees and I pray to God  
Hope he sees me through till the end

Seen better  
Na Na Na Na Na Na Na [x4]
