

# Pete Murray, Trust

I sit so alone in a room  
Bright light on my face  
Interrogation consists of two  
Questions of my faith

C'mon baby, come on shake me  
You won't leave me alone  
C'mon make me, c'mon break me  
I won't take it at home

I fall back onto the floor  
Bright light on my face  
Constriction consists when I breathe  
From losing my space

C'mon break me, c'mon shake me  
You won't leave me alone  
C'mon make me, c'mon break me  
I won't take it at home

And it's been so long  
Since I heard you say  
And it's been so long  
Since I heard you say

You don't trust me, trust me, trust me, trust me  
You don't trust me, trust me

C'mon break me, c'mon shake me  
You won't leave it alone  
C'mon make me, c'mon break me  
You won't take it at home

And it's been so long  
Since I heard you say  
And it's been so long  
Since I heard you say  
And it's been so long  
Since I heard you say  
And it's been so long  
Since I heard you say

You don't trust me, trust me, trust me, trust me  
You don't trust me, trust me
