

Peter Andre, Best Of Me

Ask me questions lady, I won't tell you no lies
Express what's on my mind
Don't scratch the surface baby lets take it deep
You won't believe what you'll find
I wanna get down to real

If you think you know me
Then you'd better think again
Cos' you ain't seen the best of me yet
The more I get to know you
The more I got to show you
Cos' you ain't seen the best of me yet

There are secret places where we all hide
I need to take you there with me baby
A whisper from your lips just let your guard slip
I've been cravin' for honesty
I wanna get down to real
There's something special that I wanna reveal

If you think you know me
Then you'd better think again
Cos' you ain't seen the best of me yet
The more I get to know you
The more I got to show you
Cos' you ain't seen the best of me yet (x2)

You ever seen it wait till I reveal this
Intimate side love-jones can't deny
I'm about to burst cos' you got me on a flava
A kiss from your lips and I'm no longer stagnating
Let's take this ride to a private place
Face to face ain't no need for the chase
Izzie I blows up the p.a with Peter Andre
As we blow thru your states

You know that I wanna get down to real
There's something special that I wanna reveal

If you think you know me
Then you'd better think again
Cos' you ain't seen the best of me yet
The more I get to know you
The more I got to show you
Cos' you ain't seen the best of me yet (rpt to fade)
