

# Peter Andre, To The Top

Take it to the top'Cos I never wanna stop  
To the top, c'monTake it to the top'Cos I never wanna stop  
I call you on the telephoneTo find out what you like  
Can I be the special oneTo make it all right  
Let me touch you everywhereMy feeling is pure desire  
All you do is call my nameYou set my world  
You know I'll be there for your loveI wanna do you up  
Let me be your everythingLet me touch you  
Take it to the top'Cos I never wanna stop  
To the top, come onDon't try to play me down  
Take it to the topHere it is, another night  
Doin' it with my ladyWell, everything seems alright  
And boy! She's drivin' meIf we're gonna take our time  
To make this thing feel so goodThen we're gonna make it last  
Baby I knowTake it to the top'Cos I never wanna stop  
To the top, come onDon't try to play me down  
Take it to the topYou know I'll be there for your love  
I wanna do you upLet me be your everything  
Let me do you, let me
