

Peter Cetera, I Can Feel It

You know there's something I gotta say
I can feel it, yeah yeah
And I'm old enough to do things my way
I can feel it, yeah yeah
*Once I get to you
I'm never gonna let you go
I can feel it
'Cause I love you so

Baby, baby, I just want you to know

You know there's something I gotta do
I can feel it, yeah yeah
I've just gotta get next to you
I can feel it, yeah yeah

(* Repeat)
Ooh wee, baby, I just want you to know

**The way you love me, child
Makes me feel good
Do I love (want) you, girl
Ooh it's understood
Every woman needs to love a good man

And child you're looking good
From everywhere I stand
Ooh wee, baby, you're drivin' me crazy
I can feel it, I can feel it

(*Repeat)
Let me tell you, baby
I just want you to know

(**Repeat)

Lookin' mighty good
From anywhere I stand

***I can feel it
Come here, baby, you're drivin' me crazy
I can feel it
Yeah yeah, you've got me climbin' up the wall

(***Repeat)
Climbin'
