

# Peter Cincotti, Come Live Your Life With Me

No one can buy tomorrow  
No one can sell their sorrow  
But when you look into my eyes  
Darling, you'll always see

Love, I will give you love  
Come live your life with me

We'll have our good times and even in sad times  
With love we will find the way  
Nothing else matters but loving each other  
The way that we do today

Here in our world together  
Love will go on forever  
Warm in the shelter of my arms  
Darling, you'll always be

Love, I will give you love  
Come live your life with me

Here in our world together  
Love will go on forever  
Warm in the shelter of my arms  
Darling, you'll always be

Love, I will give you love  
Come live your life with me
