

# Peter Frampton, Everything I Need

Everyday I would get up  
Start looking for you  
Those morning blues  
Would carry me thru the day  
It ain't nothing new

I know you held the aces  
Cause I dealt you the hand  
So you'd never surrender  
To the leader of this band  
Need you more and more  
Love more the one I adore

You got everything I need  
You got everything I need  
You got everything I need  
You got everything I need

I heard it said  
What a man gets  
Is what a man deserves  
Life gets thick  
Tempers quick  
Shatters my acoustical nerves

City to city, town to town  
Running me ragged  
Running right and wrong  
Making music makes me weak  
Then it makes me feel so strong  
Give it all, for the time has come  
Get up and have my fun
