she buys me flowers
this could be big
brings me french coffee
she's really diggin' me
now -- for now
she comes in the morning
leaves in the night
she's got a boyfriend
i guess that's alright
now -- for now
friends are saying she's a waste of time
i should leave her now
call me crazy i still feel like we
just might make it somehow
but for now i've decided to live for now
i told her someday
she'll be all mine
she said keep dreaming
i guess she's not buying it
now -- for now
