

Peter Frampton, This Time Around

We'll be fine this time around
Hold the line this time around
All that stormy weather
Get your soul together now
There's blue sky all around

Once we gave into the night
Got it wrong but that's alright
There's a new day shining
There's a silver lining now
This time we both know how

(chorus)
Take the love that I bring
Take this song that I sing
Melody, harmony, You and me
We're gonna play it right this time around

No one breaks this time around
Life just takes where we're bound
Hear the music playing
We know what it's saying know
Lost until we're found
And we're found this time around

(chorus)
Take the love that I bring
Take this song that I sing
Melody, harmony, you and me
You see dreams will come true this time around
Coz it's high time this time around

(sax solo)

In the dark on the way
Dream the light 'till it stays
Got it all here and now
It's our time this time around
