

Petite Meller, Barbaric

If you got it babe just show it
While you're young and free
I feel it coming over
Way up hard on me
I've noticed something's wrong
When you're not here with me
I feel it like a comet
Crashing down in to the sea

Who's laughing now? /3x

We are Babaric, don't you get it
Don't give up on me
We are Babaric, in a manner,
I'm just hungry for your skin
We are Babaric, don't you get it
Don't give up on me
We are Babaric, in a manner
I'm just hungry for your skin

Before you shot the door
I hope you think of me
How you hold me with your borders
Seven lies and me
We walk down different roads
Nobody ever meet
You're running like a savage,
Hunting down the one you free

Who's laughing now? /3x

We are Babaric, don't you get it
Don't give up on me
We are Babaric, in a manner,
I'm just hungry for your skin
We are Babaric, don't you get it
Don't give up on me
We are Babaric, in a manner,
I'm just hungry for your skin
/2x
