

# Petra Berger, If I Had A Wish

Sisi, I know youre sad  
Through all the hurt youve had  
I cant make it right  
Cant win your fight  
Although Id like to

You married far too young  
You were a precious one  
He stole you away  
A new role to play  
The empress of Austria  
If I had a wish  
I wouldnt miss  
My chance to say

Sisi Id braid your hair  
Brush away all despair  
You flirted with death  
To take your last breath  
And lead you to heaven

Sisi it makes me sad  
You had your babies too  
Taken away from you  
How did you survive  
So long in that life  
I couldnt do it  
Lets dream that youll be  
Barefoot and free  
With all your children

Sisi Id braid your hair  
Brush away all despair
