

Petra, Oasis

You give me water in a dry and thirsty land
You satisfy my hunger
You feed me from your hand
I was a wanderer in the wilderness
Until I stumbled on your oasis

And I will stay here with you
Here in the shade, here in the cool
You keep me safe through the night in your oasis

You give your spirit
To a dry and thirsty heart
You satisfy my longing
I hear the voice of God

I was a wanderer in my emptiness
Until you brought me near your oasis

And I will stay here with you
Here in the shade, here in the cool
You keep me safe through the night in your oasis

And I will drink from your well
I find my peace here in your shelter
And I will stay here with you in your oasis
