

# Petula Clark, Cut Copy Me

Hungry with you and when you are near  
I hide my coyness and fear  
Don't let the light grow dim  
It's just you and I in the moonlight here

Cut copy me I'm all yours  
You're the shore line I see when I'm off course  
I want you to hold me forever and make it last  
Forget the others from my past

I seek you in the depths of the night  
like a beacon of light you gave my fright  
I promise to give you the sweetest sleep  
And my shoulders your's when you weep

Cut copy me I'm all yours  
You're the shore line I see when I'm off course  
I want you to hold me forever and make it last  
Forget the others from my past

Cut copy me I'm all yours  
You're the shore line I see when I'm off course  
I want you to hold me forever and make it last  
Forget the others from my past
