

Phantasma, Let It Die

(Verse)

Silence sleep, violent dreams
Someone tears, someone screams
I can manage walk them out
Fragment tears, memories, so my heart not to bleat
For it's boundin' way too loud
Lay me down or wait me down
My mind keeps spinnin' me lies
Most of all you feel is not for me
But you will still be fine

(Verse)

All the experience of the places I've been
All the things I have said on dawn
Half of it true intense, half of it menin' less
Maybe I had a ready roof

(Pre Chors)

The revenince in light will turn in gold and keep all my mind
But nothin' change, nothing turn the pain away
So now it's time

(Chorus)

To let it die x 2
Too see for far line
If the pain will be long in time
Let it die
Don't keep and drive inside
Turn that pain and go to light

(Verse)

Silence sleep comes to me when I'm finely free
I can turn and wait to meet you there
All this time spend apart
All my demons hurts

(Pre Chorus) + (Chorus)

(Bridge)

Ooh it's time to let it go
Time to face that, time to take and try
Time to let it go
Time to face it all

(Chorus)
