

Phantom Planet, It's Over

You took so long
And I should have guessed it then
Well, he makes friends like he makes deals
With a pat on the back, a hand shake, and a grin

I said I heard love can last forever
You said nothing lasts forever
I guess I should have known better

You don't act surprised
That I know about you and that other guy
Well, you make me feel so damn small
I've convinced myself I don't exist at all

I said I heard love can last forever
You said nothing lasts forever
I guess I should have known better

Cause it's over now
Yeah, yeah
Cause it's over now
Yeah, yeah
Cause it's over now
Yeah, yeah
Cause it's over now

I heard love can last forever
You said nothing lasts forever
I heard love can last forever
You said nothing lasts forever
I heard love can last forever
You said nothing lasts forever
I guess I should have known better

Cause it's over now
Yeah, yeah
Cause it's over now
Yeah, yeah
Cause it's over now
Yeah, yeah
Cause it's over now
Yeah, yeah
