

Phantom Planet, This Heart Of Mine

You can tell I've got a lot on my mind
Finally noticed I had left you behind
This heart of mine never beat on time
This heart of mine keeps me up at night
This heart of mine lost the fight

You could say I never gave you a glance
When you left you never gave me a chance
This heart of mine never beat on time
This heart of mine keeps me up at night
This heart of mine lost the fight

Girl, I'm sorry I was wrong
I was lost when you were gone
You came back and turned me on
Now we're right where we belong
Girl, I'm sorry I was wrong
I was lost when you were gone
You came back and turned me on
We are right where we belong

We are right where we belong
