

Pharao, It's Your Way

It's your decision, it's your way
It's your way

When you feel it's over go away
Find another love, make a better day
Don't you care about what people say
It's your decision, it's your way
When you feel it's over go away
Find another love, make a better day
Don't you care about what people say
It's your decision, it's your way

Heartbreaks seem to come so often in a life
Set up, wake up, smoking coffee it's not
Just an affair of the mind and it'sdown on my feel
A systematic trigger love, I look for real love
Ladies of the play with your mind
They're taking the money and running or someone's time
What's going on, is my heart turned to stone,

I admit that you wait, but I gotta be wrong

If you can't stand it anymore you'll realize
That something in your life must change

It's your way

Life is only living when the world's going around
Love is only showing what you needed to find
.... gotta have steps and I've got to think twice
Don't wanna be fool no more, gotta get a life
It's your way, it's OK, a new love do I....
Without thinking all the time about what the other say
Learn to love your life and live it well, what the hell
..... you wait, only time to tell
