

# Pharoahe Monch, Got You

Yeah Yeah

Get your hands up against the wall and spread them  
Opposition I'll just take him  
Fuck You (Fuck You) Fuck You (Fuck You)  
Understand, I'll never kid around with you  
Try to resist I'll dismiss you  
Fuck You (Fuck You) Fuck You (Fuck You)

Basically I'm the worst nightmare you ever had  
Figure a trigger happy nigger with a badge  
Parading around Los Angeles (Argh!)  
High off coke, with a banana clip  
Feasting off the weak street of Angeles  
with a manuscript, and professional ass whipping  
Task force, brass nuckles a master in ass kicking  
If you ask for it I'll blast for it you back-flipin  
No one saw it I won't stop the clock ticking  
Got a rookie for a partner that's ready to fight me  
The world's a merry-go-round I stereotype niggers  
He's a spit in the face for pitbull and bite niggers  
Matter of fact, I kinda like this cat for a white nigger

Get your hands up against the wall and spread them  
Opposition I'll just take him  
Fuck You (Fuck You) Fuck You (Fuck You)  
Understand, I'll never kid around with you  
Try to resist I'll dismiss you  
Fuck You (Fuck You) Fuck You (Fuck You)

I got the project sorta locked they trust my logic  
'cos the star cops got it from guns to narcotics  
My object is to deprogram blind ya optics  
You cannot stop this mission this topic  
'cos you can write tickets my nigger or get paid  
Learn this game in the streets or get slayed  
collect this cheese at the end of this maze  
Or hit the desk and fill out forms for days  
Need I remind you  
how easy it would be to take the city by storm with the whole force behind you  
Shorty in the trunk and on my ankle there's a 9 too  
'cos psychologically the guns you use will define you

Get your hands up against the wall and spread them  
Opposition I'll just take him  
Fuck You (Fuck You) Fuck You (Fuck You)  
Understand, I'll never kid around with you  
Try to resist I'll dismiss you  
Fuck You (Fuck You) Fuck You (Fuck You)

These evil streets don't sleep  
Be careful with who you mingle  
In a city where it pays to be bi-lingual  
Jokes so brief-o  
{not sure of this line}

I'm Favo leaving enemies dead on arrival  
For a couple of mill and you're fucking the deal up  
Trying to play the hero cop and you still suck  
Put you to bed with one in your head you won't feel much

(Repeat 2 X)

Get your hands up against the wall and spread them  
Opposition I'll just take him  
Fuck You (Fuck You) Fuck You (Fuck You)

Understand, I'll never kid around with you  
Try to resist I'll dismiss you  
Fuck You (Fuck You) Fuck You (Fuck You)
