

# Phat Chance, All Comes Down

I tried to do it my way, in every single task  
I tried to make things work out  
But I know they wouldn't last  
I tried to walk on water, I tried it on my own  
I tried to move the mountain, I can't I'm all alone

(Chorus)

So it comes down to You to come and rescue me  
Lord, You walked on the water and parted the sea  
Now You're moving the mountains  
And they're under my feet  
You amaze me with everything You do  
It all comes down to You

I washed every fortune, crushed by all my pride  
But when I came back broken  
Your arms were open wide  
I tried to walk on water, I tried it on my own  
I tried to move the mountain, I can't I'm all alone

Repeat chorus
