

Phat Chance, Without You

Oh God look at me now
What have I done
I turned my back and took the road to nowhere
I can't believe this fear that I have
And all of this pain
I've driven myself to a dead end
I want you near me
Oh I need you near me

(Chorus)
Without You I'm so lonely
Without You I have no purpose in life
Without You all my dreams fall apart
Without You in my life

Oh God can You help me out
I keep drifting on so far
I lost my direction, spinning round and round
I'm trying to find You
Treading water, it's sink or swim
But I can't help but wonder
Won't You, will You pull me back

Repeat chorus

And I confess my sin to You
And I admit that I need You

Repeat chorus
