

Phelps Brother, Eagle Over Angel

I'm sure you don't remember me Its been a while I know
You put this tattoo my arm A long long time ago
The last time I was in your shop She was sitting by my side
The girl that I called Angel But her love for me has died

Chorus

So, put an eagle over angel Put a teardrop in his eye
And I'll just look the other way And try hard not to cry
Put an eagle over angel Spread his wings so he can fly
To a place where hearts aren't broken And no one says goodbye

You put her sweet name on my arm With a tiny heart below
But it lasted longer than her love Now she's gone for good I know
For years I wore my Angel's name Always happy to explain
But when they ask about her now I just can't stand the pain

Chorus

So, put an eagle over angel Put a teardrop in his eye
And I'll just look the other way And try hard not to cry
Put an eagle over angel Spread his wings so he can fly
To a place where hearts aren't broken And no one says goodbye
