

# Phideaux, Come Out Tonight

It's all the same/we're all alone in our heads  
We're all the same when we're lying in our grave  
Maybe I see no questions/search for the wrong answer  
Now  
Maybe goodbye/maybe goodnight/wondering why  
Maybe I ask by asking/maybe I see the task before me  
Looking inside/everyone's right/opening wide  
Maybe I ask the questions now/search for a long answer/how  
Giving good vibe/giving good night/opening out/opening wide  
Maybe I see the questions/maybe I see the answers  
Maybe I look for something more  
Watching the waves roll/watching the garden springs  
Looking for fireflies/maybe they're fluttering  
Looking inside for reasons that there may never be  
Maybe it's quiet enough to be  
Just looking for you as you look for me  
Looking inside/maybe the stars are opening wide  
Looking inside/stars come out/opening wide  
Looking inside/there are locks yet to try  
Looking inside/there's a crater though your eyes

There's star wandering wide/wandering light  
Wandering white/under the black/under the night  
Come out tonight/come out tonight  
The stars come out tonight  
The stars go out tonight/go out tonight  
The stars are moving/moving out tonight  
The stars are moving/come out tonight
