

# Phoenix, One Time Too Many

Quiet please, turn it off, shut it down  
Slow down your tan, I'm gonna miss you a lot There it goes... Your tears again... This is no fun...  
There it goes... Your tears again... As you walk away...  
Then it's hard to tell what kind, they do look alike

Oh no that ain't what I said  
Oh no that ain't what I said

Always trying to fall asleep to make my way out Looking at the ceiling, I'm counting the days There  
There it goes... Your man is willing to cooperate...  
Then it's hard to tell you kindly that ain't what I'm like

Guess I'd better find us a way out  
"One time too many" I said  
It's a long way to look alike  
That is what you say

Slow down your tan. I'm gonna miss you a lot There it goes... Your ID's been stolen...  
They wave their hands goodbye... As you walk away...  
Then it's hard to tell who's kind, they do look alike

Oh no that ain't what I said  
Oh no that ain't what I said

Guess I'd better find us a way out  
"One time too many" I said  
It's a long way to look alike  
That is what you say
