

# Phoenix, Run Run Run

Business calls me, trouble down the waterfront  
You know, I tried to, now I'm running outta lies  
It's a clear view, when all you are is gettin' paid  
No more favors, I know what we can do about it

I think I'd better run, run, run  
I think I'd better run, run, run  
You didn't catch me fallin', fallin', fallin'  
Fallin', fallin', fallin'

Contradictions get me everything I want  
I'll let you know but I think it's gonna take a while  
It's a clear view, no one's waiting at the door  
A million letters, they couldn't make me change my mind

I think I'd better run, run, run  
I think I'd better run, run, run  
You didn't catch me fallin', fallin', fallin'  
Fallin', fallin', fallin'

How you want it to be, sittin' by the waterfront  
I know I should be drifting far enough to reach the shore  
It's a clear view, don't you underestimate me  
No more flavor I know that I can live without it

I think I'd better run, run, run  
& leave those things for someone else  
But I liked it  
I don't even care  
If you got to play the game you got to do it well
