

# Pietasters, Maggie May

There's a place were we all go  
To have a few when we feel low  
To drink ourselves into a state  
Drown our sorrow and fuel our hate

A Bombay beauty in a tight black dress  
Pours our beer and cleans our mess  
Answers to the name of Maggie may  
When we see her what do we say?

Chorus :  
Maggie may bring us another beer,  
we need another beer,  
Take away our troubles here  
Maggie may bring us another beer,  
we need another beer,  
Take away our troubles here

There's a place were we all go  
To have a few when we feel low  
Been laid off been laid in  
We've been locked out  
We've been kicked in

A Bombay beauty in a tight black dress  
Pours our beer and cleans our mess
