

# Pigface, Asphole

a thin word  
process mile union made  
the snake defiled  
blue book murder the best you could  
lessons spite heaven twisted  
candid photos intermixed in  
sitting backdoor mud realized  
dirty corners of the mind  
whistler's father figure heads  
sitting in eye and wasted  
pick yourself up off the floor  
shaken angel taken home  
clicking heels gold brick road  
no place like home it seems  
now together shadow rithing  
you world comes crashing down  
rain - the gasping now  
rain - the melting snow  
rain - cold image much larger than life  
rain - comes crashing down  
rain - go pour it on  
rain - forever you're left with this curse  
so was it mud cracked corner smile  
no living out the lie  
motion vixen man so proud  
seems so innocent inside  
seems quite a horror show  
treated like a child who knows  
the mascot reveals the worst  
tilted and hungry suicide...suicide...suicide! suicide!  
suicide! suicide! suicide! suicide!  
children went hungry  
children went hungry  
suicide  
living in a dream  
rain - this is your song (star?)  
rain - it lingers on  
rain - your royalty consumed by a vice  
rain - done acid sound  
rain - believe it all  
rain - together you're left with this curse  
go through the doorway world subjected  
shrink away from those who see  
needed wicked garden grows  
slither down the asphole  
looking backward of the form  
as lightshow of your own device  
back of penny torture matters  
talking through a mere the says it all  
finger asphole  
love finger asphole (x3)  
love finger the asphole (x2)  
love finger (x4)  
rain - the gasping now  
rain - the melting snow  
rain - cold image much larger than life  
rain - comes crashing down  
rain - go pour it on  
rain - forever you're left with this curse  
rain - this is your star  
rain - it lingers on  
rain - your royalty consumed by a vice  
rain - done acid sound  
rain - believe it all

rain - together you're left with this curse  
going at you god  
dear god  
go pour it on (x3)  
rain (a few times)  
left with this...curse
