

# Pigface, Kiss King (High High High)

in bed i smile  
who's scared of dust  
whose ways had tempted you afar  
the twist in this  
was fear alive  
it took the stars to show me

i am for the kiss king  
did i come up for sky  
like a rush that never fades  
high  
(high high high)  
high

and at the window  
late at night  
i turned away  
to run with light  
i twisted this  
to feel alive  
till bigger ashes  
shook me

i am for the kiss king  
did i come up for sky  
like a rush that never fades  
high  
(high high high)  
high  
(high high high)  
high  
(high high high)  
high

i would never  
pick this pain apart  
do you want to?  
i want to  
i would never  
pick this pain apart  
do you want to?

i am for the kiss king  
did i come up for sky  
(kiss king touch me kiss king high high high)  
i am for the kiss king  
did i come up for sky  
like a rush that never fades  
high  
(high high high)  
(kiss king)

i am for the kiss king  
i am for the kiss king  
i am for the kiss king  
i am for the kiss king  
(high high high)  
(high high high)  
(high high high)

i wish that i could play with  
the river ashes showed me
