

Pigface, Kiss King (High High High)

in bed i smile
who's scared of dust
whose ways had tempted you afar
the twist in this
was fear alive
it took the stars to show me

i am for the kiss king
did i come up for sky
like a rush that never fades
high
(high high high)
high

and at the window
late at night
i turned away
to run with light
i twisted this
to feel alive
till bigger ashes
shook me

i am for the kiss king
did i come up for sky
like a rush that never fades
high
(high high high)
high
(high high high)
high
(high high high)
high

i would never
pick this pain apart
do you want to?
i want to
i would never
pick this pain apart
do you want to?

i am for the kiss king
did i come up for sky
(kiss king touch me kiss king high high high)
i am for the kiss king
did i come up for sky
like a rush that never fades
high
(high high high)
(kiss king)

i am for the kiss king
i am for the kiss king
i am for the kiss king
i am for the kiss king
(high high high)
(high high high)
(high high high)

i wish that i could play with
the river ashes showed me
