

# Pinback, Forced Motion

I need the combination to unlock your code.  
I need the combination to unlock your code.

We need you on set.  
We need you on set now.

I wish I could decipher your letter.

We need you on set.  
We need you on set now.

We're burning daylight it's so far.

I wish I could decipher your letter.

Broken bulbs white flashes surround you  
Smashed plates and glasses haunt you  
It's a simple (method) that's true  
(I blame your) sadness on you

Guide me, test me, force me through these motions.
