

# Pinback, From Nothing To Nowhere

And nothing makes you writhe  
And nothing makes you move as far down the wild  
A sudden gesture  
Bruise your faith into right  
Recharge your dimensions  
Read yourself into history  
Rewrite your dementia

These shadows take care of us / We come from  
They cover us up in the shade / the ocean  
And to the sky we're gonna move

These shadows take care of us / We come from  
They cover us up in the shade / the ocean  
And to the sky we're gonna move

You turn away  
turn away  
turn away

If it's nothing but a sign  
Bleed onto your shoes, man  
If it's nothing but a sign  
Bleed onto your shoes, man

What's defined as right?  
A simple nature  
What's understood de-volved  
From nothing to nowhere / Turn away  
Please your numbers  
Stay your numb friends  
Plead to no one  
Stay in nowhere / Turn away

These shadows take care of us / We come from  
They cover us up in the shade / the ocean  
And to the sky we're gonna move

These shadows take care of us / We come from  
They cover us up in the shade / the ocean  
And to the sky we're gonna move

Oh, oh.

If it's nothing but a sign  
Bleed onto your shoes, man

If it's nothing but a sign / Revision, revision  
Bleed onto your shoes, man / Revision, revision
