

Pinhead Gunpowder, Before The Accident

Well here's to you
And your old crew
For when you used to run this town
Before the new kids came around
Before you came back
Before you went away
Before everything here changed

Here's to you
And your old crew
Before you played your cards too soon
Here's to sitting around and talking
About how wild you used to be
Here's to stagnating and complaining
And to your lame washed up bar scene

Here's to you before growing up too soon
Before the accident

Here's to being bitter, here's to regret
Here's to the old days, drink to forget
Here's to you ditching your used-to-be's
And coming back out on the town with me

Here's to you before growing up too soon
Before the accident
