

# Pink, Crash & Burn

I wish I could live my life on an aeroplane  
I'd have free drinks all day  
And my stewardess would say  
If you're under pressure  
There's a mask above your head  
Make sure yours is secure  
Before you try to help your friend  
Look out the window and see the sunshine  
No more construction, destruction & dying  
I could float through the clouds with my cell phone turned off  
as high as I can go and I never belong  
Recline my seat back  
Kick off my shoes  
Lay down my worries  
I never crash & burn  
I'll never crash & burn  
If I lived my life on an aeroplane  
I'd pick up all my friends and we'd drift away  
Citizens of nowhere with no red & blue divide  
We'd leave the world where greed and propaganda multiplies  
Everywhere is love  
Everyone is love  
Everywhere is love  
Recline my seat back  
Kick off my shoes  
Lay down my worries  
I never crash & burn  
I'll never crash & burn  
No complications  
No starring roles  
We'd all have plenty  
We'll never crash and burn  
We'll never crash and burn  
Everyone is love  
Everywhere is love  
Recline my seat back  
Kick off my shoes  
Lay down my worries  
I never crash & burn  
I'll never crash & burn
