

Pink Cream 69, Always Love You

You made me smile
You're my sweet child
And i pray for the day
I can steal your heart away
You drive me wild

So won't you let me take you
Into my world, into my world

I will always love you
Always love you with my heart
I will always love you
Always love you with my heart
But you don't believe in love

I gave you all
You let me fall
But i don't want to go
Cause you're all i have to show
I just want to hear you call

So won't you let me take you
Into my world, into my world

I will always love you
Always love you with my heart
I will always love you
Always love you with my heart
But you don't believe in love

I did all that you wanted
You were my everything
So when i cry out your name
Is there anything left i can do

I will always love you
Always love you with my heart
I will always love you
Always love you with my heart...
