

# Pink Cream 69, Don't Let It All Come Down

if the night falls like a hammer  
hits a nail into your soul  
if the rain beats on your window  
and you lose control  
hold your tears back for a moment  
light a candle to the night  
al you gotta do is call me  
and I'll arrive

don't ever let it all come down on you  
why don't you open up your eyes and see  
don't ever let it all come down on you  
'cause you got me  
why don't you open up your eyes and see

take a ride into the future  
come with me to wonderland  
can you see us when we're older  
walkin' hand in hand  
so the sun don't shine forever  
but you're not alone tonight  
and I'll be here with you tomorrow  
in the morning light

don't ever let it all come down on you  
why don't you open up your eyes and see  
don't ever let it all come down on you  
'cause you got me  
why don't you open up your eyes and see

don't ever let it all come down on you  
why don't you open up your eyes and see  
don't ever let it all come down on you  
'cause you got me  
why don't you open up your eyes and
