

Pink Cream 69, One Step Into Paradise (Version

It's the night I'll be with you
Lovely to see you, lovely to hear you
You're TV-acting pulls me through
Side by side I dreamt to be with you

It's been a long time you've been gone
I waited for you longing to tell you
I have missed you for so long
Side by side I dreamt to be with you
Only with you

Looks like one step into paradise
Silver screen lights in my eyes
One step into paradise
So close before my eyes

I've seen you fighting for the truth
Creatures of danger, voices of strangers
A hard and obtained crew
Side by side I dreamt to fight with you
Only with you

Just like one step into paradise
Silver screen lights in my eyes
One step into paradise
So close before my eyes

Looks like one step into paradise
Looks like pictures of paradise
Pictures of paradise, pictures of paradise

You play the clown, you play the fool
Nobody's asking if tears are only tools
I've seen you playing my own rules
Side by side I dreamt to play with you
Only with you

One step into paradise
Silver screen lights on my eyes
One step into paradise
So close before my eyes

One step into paradise
Just like pictures of paradise
I wanna hear it again
One step into paradise
Looks like one step into paradise
