

# Pink, Long Way To Go (feat. The Lumineers)

Who do you love?  
Let it roll off your tongue  
Who do you love?  
When it all falls down  
Crying for help  
But you don't pick up your phone  
Probably drunk

You couldn't stop, couldn't stop, couldn't realize  
And are your enemies real in your real life?  
I could stay up with you, up with you all night  
I wanna know how you feel on the inside

We got a long way  
We got a long way to go

You're what I want  
You're what I want  
I'm in a desperate way  
Filling my cup  
Filling my cup  
Pretend it's all okay  
Watch me above  
Watch me above  
Flickering like a flame  
Want ain't enough  
It's never enough

I think I could stop, I could stop, don't you realize?  
That all my demons and fears disappear now  
When you stay up with me, up with me all night  
I wanna show you my scars in the daylight

We got a long way  
We got a long way to go  
And those heavy hours they move so slow  
We got a long way  
We got a long way to go

Laying there  
Shaking hard  
Sweatin' bullets in the dark  
You always say, "It ends the same"  
You never try, you never change  
Do you?  
Oh

We got a long way  
We got a long way to go  
When the feeling comes the pain dies slow  
We got a long way  
We got a long way to go  
And those heavy hours they move so slow

We got a long way  
We got a long way to go  
So hold me down or tie me up  
We got a long way  
We got  
We got a long way to go  
We gotta go

We got a long way  
We got a long way to go

We got a long way  
We got a long way to go
