

# Pissing Razors, Replace The Day

seeking redemption for loss in the past  
defining my structure, my strength to surpass  
something is taking over me  
losing my sight, I cannot see

I'm gonna beat you down  
if you dont turn away  
I'm gonna take you back  
and replace the first day

Instant aggression, this shade you know  
cursed by appearance,  
then the feelings will grow  
something is taking over me  
losing your sight you still can't see

this is haunting me, this cannot be  
this is not me, just let it be

who gives a fuck
