

Pitchshifter, Microwaved

Systematic abuse on a daily basis. You're a racist (you don't know why?)
Evidence of your intrusions, multiplied by my contusions,
you can't suture the future (though you may try)
Because we're cut, dried, microwaved
safe in the knowledge that we'll all be saved
You say there's no black in the Union Jack
but you can't give me a single reason why?
I say there's no common wealth in the commonwealth
cause it's the colour of your money matter
since the day the country died.
and you don't read the papers? economics is gonna save us and science never sleeps
