

Pitchshifter, Shutdown (Heat Treatment mix)

was it something i said?
but i don't even know you
was it something i did?
and if it wasn't just tell me

if you show me no soul
then you give me no reason
stand up straight
but at work you can't see me
you've gotta just stay watching
or you're never gonna

shut us down, shut us down
shut us down, shut us down
we'll just get back up again
and if you shut us down, shut us down,
shut us down, shut us down
we'll just get back up again

if i gave you the tool
can i tamper my freedom
and if i suffer the fools
would you let me succeed them

constructing my soul
shall i give you the reasons
stand up straight
but at work you can't see me
you've gotta just stay watching
or you're never gonna

shut us down, shut us down
shut us down, shut us down
we'll just get back up again
and if you shut us down, shut us down,
shut us down, shut us down
we'll just get back up again

no matter what you say
we're gonna get back up again
no matter what you do
we're gonna stand up straight again
no matter what you say
we're gonna get back up again
no matter what you do
we're gonna stand back up again

shut us down, shut us down
shut us down, shut us down
we'll just get back up again
and if you shut us down, shut us down,
shut us down, shut us down
we'll just get back up again

and if you'll shut us down, shut us down,
shut us down, shut us down
we'll just get back up again

and if you'll shut us down, shut us down,
we'll just get back up again

and if you'll shut us down, shut us down,
we'll just get back up again
