

# Pitchshifter, Stop Talking (So Loud)

Reflecting my time, not wasting a second,  
forget what it takes' cause you can't keep us down.  
Exceptions aside, a favourite obsession,  
you're wasting your time if you don't make a sound.  
Keep making mistakes, deflecting the pressure

Stop talking so loud, I can hear what you're saying  
is what you're saying.

Hold on for the ride, abuse and oppression,  
a small price to pay to be the land of the free.  
keep watching the skies, it's some kind of Escher

Stop talking so loud, I can hear what you're saying  
Is what you're saying.

Sometimes we all say stupid things among our sins.

We're taking our time, not wasting a second

Stop talking so loud, I can hear what you're saying  
is what you're saying.
